Acknowledgment

Firstly, we would like to thank our project guide Prof, Uttam Chauhan at the computer department, VGEC, who helped us with the project work. We would also like to give our gratitude to our project reviewers Prof. Nakul Dave and Prof. Avani Dave for their insights on our project work. We have like to thank them for providing the utmost guidance through the time of development of the project.

We have grown both personally and academically from the experience.

Abstract

- We aim to develop a chatbot which can be used to answer queries of students and well as faculties related to a particular engineering college.
- Our goal is to solve the problem of time-consuming browsing of college websites as well as physical contact required to get the queries answered.
- A chatbot is a computer program that can converse with the user in natural language and solve their queries.

AI	Artificial Intelligence
AIML	Artificial Intelligence Markup Language
UML	Unified Modeling Language

Table of Contents

Acknowledgment	i
Abstract	ii
List of Figures	iii
List of Abbreviations	iv
Table of Contents	v
Chapter 1: Introduction	1
1.1 Why IDP/UDP?	1
1.2. Pre-Design	1
1.2.1. Learning need Matrix	1
1.2.2. Conclusion from Reverse Engineering.	1
1.3. Project Summary	2
1.4. Objectives of project	2
1.5. Problem Specifications	2
1.6. Technology Used	2
1.7. Hardware-Software used	2
Chapter 2: System Analysis	3
2.1. Study of current System	3
2.2. Problem and weakness of the Current System	3
2.3. Requirement analysis of New System	3
2.4. Brief literature review and Prior Art Search (PAS) about the project.	3
2.5. Design: Analysis, Design Methodology, and Implementation Strategy.	5
Chapter 3: Project Management	9
3.1. Project Planning and Scheduling	9
3.1.1. Project Development Approach	9
3.1.2. Project Plan	9
Chapter 4: System Modeling	10

4.1. Dataflow diagrams	10
4.2. Use case diagrams	11
4.3. Activity Diagrams	12
4.4. Sequence diagram	14
4.5. State Transition Diagram	15
4.6. System Architecture	16
Chapter 5: Engineering of Economics Design	17
5.1. Market Demand	17
5.2. Your Business Strategy	17
5.3. Your service	17
5.4. Who is your Client?	17
Chapter 6: Conclusion and Future Scope	18
References	19
Appendix	20
